

# DOG FIRST AID & CPR

## Do you know what to do?

### Course Overview:

Learn how to determine if your pet needs CPR, how to do chest compressions to get blood flowing and mouth to snout ventilation to get oxygen into the blood while you're transporting your pet to the vet.

With approval and co-authored by our PDRE LLC affiliates-Veterinary Medical Director Dr. John Delandsheer of VCA Lakeside Animal Hospital, Big Bear CA, Veterinary Medical Director Dr. Harmandeep Sanghera of California Veterinary Hospital in Gardena, CA; and Director Dr. Eileen Roberts of Country Club Animal Clinic in Rancho Mirage, CA.

A Certificate of Completion will be issued after you complete the course.
